How do you like the weather.

Jack Brown and Fred Lind were in Enebant on Wednesday.

They've given the keys of the City to Horton—All Doors Wide Open.

Reg. Cooper moved to the farm on Tuesday of this week.

Born on Tuesday, April 1 a son to Mr. and Mrs. Wm. Redd.

Work on the land started on a few farms the first part of the week.

Czar Fairbanks and Jack Kenney were Lethbridge visitors on Saturday.

C. F. Tollestrup was in Lethbridge Saturday. Glenn and others accompanied him.

A Frenzied, Frantic Frolic of Fun. Laughs By the Hundreds and a Heart Throb or Two.

I.B. Roberts returned Wednesday night from the Fat Stock Show in Calgary.

D. Peterson who has been away from Raymond for about six years, returned the early part of this week.

The M.J.A. Finals are being held this week-end. A full list of winners will be in next week's paper.

The gravel hauling for the Town Hall is completed now and excavating will start the first of next week.

Wm. Anderson has been busy this week capping the cornice on the Raymond Motors building.

The wind on Tuesday dried the roads out quite rapidly. Motoring is a pleasure again now.

There's a good time promised on the night of Good Friday, at the Opera House.

Getting stuck was a common thing Sunday when the snow melting had made the roads so greasy.

Mrs. Archie Robbins and little son of Salt Lake City, have been visiting here with relatives and friends for the past two weeks.

Bishop Walker, Mr. and Mrs. A. E. Hancock, Mr. and Mrs. F. B. Rolfsen and Mrs. Wm. Stewart are some of the Raymond people who are attending Conference in Salt Lake City.

Mr. and Mrs. Maurice Cooper have moved to Cardston. They took their household effects by way of Stirling in a truck. They will be greatly missed by their many friends in Raymond.

R. Paek is home again. He has been working in the country north of here for some time, and before coming home visited California and other Pacific Coast States.

Miss Devoir Meldrum and Mr. T. C. McBeath were quietly married last Friday and left immediately on their honeymoon. The Recorder wishes them the best of happiness and success.

Mr. and Mrs. Philip Baker were in Lethbridge on Saturday and had the misfortune to get off the grade coming back. Marshall Milner happened along and Mr. and Mrs. Baker left their car and rode home with Mr. Milner. A number of other cars also got into difficulties during the blizzard.

C. D. Peterson received a wire on Sunday evening, informing him of the death of his brother-in-law Adam L. Peterson of Salt Lake City, who was 60 years of age.

No details were given. The deceased was a man widely known, particularly amongst the Scandinavian people of Utah being President of their organization, Director and Editor of the Associated Press, the Scandinavian paper in Salt Lake City, and having been President of the Scandinavian Mission for a number of years.

Board of Trade Meeting

The regular monthly Board of Trade Meeting and Luncheon was held in the New Club Cafe on Wednesday at 1:15 p.m.

Pres. T.O. King was on the way to Regina, so Vice-Pres. C.C. Watson was in the chair.

After the reading and acceptance of the minutes of last month's meeting, the question of Redistribution was discussed.

After some questions, it was decided to have the Secretary write to Edmonton for information regarding the boundaries of the Warner constituency as at present organized, also the voting strength of each poll as at the last election.

Roads were discussed at considerable length, several suggestions being offered as to having better roads without increasing the cost. A motion was carried to have the Secretary write the M. E. Council, suggesting the dragging of the roads to help maintain the smooth grade.

It was also decided to have an ad. inserted in the strip maps of the Medicine Hat to Spokane route, issued by the A.M.A., advertising Raymond Sugar and our beef finishing facilities. The Secretary was authorized to see to this.

Those present were: C. C. Watson, Mr. Henningway, E. A. Greenwood, Philip Baker, Dr. G. W. Leech, T. L. Halpin, F. R. Taylor, R. A. VanOrman, J. W. Evans and S. I. May.

TRY A FISHHOOK

The town of Plunkville has a reputation against bare legs on the street. Fresh colored hose were a problem. They solved that nicely by watching for the seam. Then came the seamstress.

"How can I tell whether these girls have bare legs or not?" was the plaint of a policeman on guard.

"Pinch 'em" was the only suggestion he got.—Brooklyn Eagle.

News Notes

C. H. Elder has sold four used Hart Parr Tractors already this spring.

"Wide Open" at the Capitol, Friday and Saturday this week.

C. E. Alfred saw two robins and a meadowlark on Thursday, and says this is a sure sign of spring.

"Wide Open" at the Capitol, Friday and Saturday this week.

J.W. Low was here holding court on Friday.

"Wide Open" at the Capitol, Friday and Saturday this week.

There is quite a pile of gravel on the site of the new Town Hall.

Funniest Office Comedy in All Film Dom. "Wide Open"

Mr. and Mrs. S. I. May were Lethbridge visitors on Saturday.

Mrs. O. H. Snow left on Saturday morning to attend Conference in Salt Lake City.

Why Not Be Just a Little Curious? Send Your Way to "Wide Open."

"Jack" Hervey is installing a new disc sharpener. This will take all discs, and "Jack" says some are too hard to "cut" so he's going to take them for a "roll". It must be some roller.

Mrs. Reg. Cooper left Raymond on Saturday for April Conference in Salt Lake City. While away she will visit her parents and other relatives in Utah and Idaho.

Horton's Human Humor Happiest in "Wide Open."

Local Men Win Prizes

Change In Ownership

E. A. Greenwood, who last year purchased the Sugar City Meat Co. from Fred Piergrass, has sold his interest to Hemmingway and Mitchell. Mr. Hemmingway comes from Vulcan where he has resided for a number of years and Mr. Mitchell has been in the shop for the past year, that Mr. Greenwood has been here. We wish the new partnership much success.

Mr. Greenwood has a shop at Wallis part interest in one in Macleod and is returning to his home in Macleod and opening a couple more shops in the Lethbridge Northern District. Raymond citizens will regret his departure, as he was highly respected in the business fraternity. Best wishes will go with him from his friends and acquaintances here.

News Notes

Nolan Jeffrey is around again after a sledge of the flu.

Solon Low spent the week-end in Cardston with relatives.

A horse buyer for Oliver Ltd. Calgary was in town last week and purchased 36 head of horses. Part of these were shipped out last week, the balance went on Tuesday.

Ratt Motors have secured the entire front part of the O'Brien building and are fixing up a nice show room and office.

Mr. Spackman, who has had charge of the Red and White Store here since last summer, is returning to his farm at Stirling, and Miss Ellen Spackman is taking charge here. Mr. Spackman is offering his Raymond home for sale. Read the Red and White ad.

ROBERTS AND BRANDLEY WIN PRIZES AT CALGARY STOCK SHOW

All exhibitors secured a premium over the ruling market price when the steers were sold by auction. The top for the sale was made by I. Bliss Roberts, Raymond, on sale of the fourth prize pen of 15 steers under 1,100 pounds, to Mackenzie Brothers Lacombe, at \$11.60. All of the first prize pens and carlots were withheld from sale, pending exhibition at the Edmonton show next week.

Takes Top Honors

W. P. Fleming walked away with first and second for carlots under top honors in all classes, securing 1,100 pounds, first and second for carlots over 1,100 pounds, first and third for groups of five steers over 1,100 pounds, and first and fifth for groups under 1,100 pounds. He also annexed the breed association special for the best exhibit of Herford.

Mackenzie Bros. Lacombe, were third in the carlot, over 1,100 pounds class, with Shorthorns, and I. Bliss Roberts, Raymond, fourth with an entry of Angus steers.

Second and fourth places for group of five steers over 1,100 pounds also went to Mackenzie Bros. Paul Gabriel, Evakine, getting fifth and Thomas and Thomson, High River sixth.

In the junior class for groups of five, E. M. Whiteside, Stettler, was second, Paul Gabriel, third and Louis Brandley, Raymond, fourth.

Second Best Price

Louis Brandley secured the second highest price for the day when he sold five white-faced steers to the Swift Canadian Co. for \$11.15. Brandley also sold five head to Burns and Co. for \$10.70.

Five of Fleming's steers, third in the over 1,100 pound class brought \$11 on sale to Burns and Co., and a carlot of 15 exhibited by the same rancher, which took second in the over 1,100 pound competition brought \$10.60, from the same buyer. Nine of Fleming's animals were also disposed of to the Harris Abattoir at \$10.40.

Mackenzie Bros. sold five steers to Swift Canadian for \$10.30, and G. Leach, five to Burns and Co. at \$10.40. Thomas and Thomson, High River secured an even \$10 for five head to Burns, and A. Scheerschmidt, Stettler, \$10.40 on sale of five to G. Denon.

E. M. Whiteside, Stettler, sold two head to Burns at \$10.25, and five, the second prize entry in the under 1,100 pound class, to Swift Canadian at \$10.60.—Morning Albertan.

Stake Priesthood Meeting

Despite the heavy roads a goodly number were present at the Stake Priesthood Meeting on Sunday, presided over by Pres H. S. Allen.

After the opening exercises Pres O. H. Snow presented the name of Miss Inez Lamb as Supervisor of the Primary Work on the Sunday School Board. She was unanimously sustained.

The following young men were then presented for ordination to the office of Elder after their promising to the requirements pertaining to the calling.

From the Velling Ward, Ray and Dean Bullock and Kenneth Wilde. From Raymond 1st Ward Donald Nilsson, Isaac B. Roberts, Owen Lee, Jr., Joe Burrows, Kenneth Stone and Ray Wooley. From the Raymond 2nd Ward Willie Buttner.

David Alfred who has just returned home after a three year mission in the Samoan Islands gave a very splendid report of his labors and of the flourishing condition of the work of the Lord there, and bore a strong testimony.

All three of the Stake Presidency spoke briefly on the Centennial year of the Church and the exercises that would be carried out in connection with this anniversary next Sunday, April 6, and bore strong testimonies of the Divinity of this great work.

Brewerton Bros. Buy at Magrath

"Lee" and "Gordon" Brewerton progressive theatre men of Raymond and Cardston, completed negotiations on Monday, this week for the purchase of the Magrath Motion Picture Theatre from Melvin Godfrey and will take possession at once.

A number of improvements will be made immediately in the way of installing added equipment to bring this house up to the standard of their other splendid theatres.

Better entertainment for their patrons is a policy always carried out by Brewerton Bros., and sound equipment will be installed immediately.

The Week in the Alberta Legislature

The Legislature of Alberta will meet (or met) again on Wednesday, April 2, in the final dash to complete the work of the session. Unless unforeseen developments arise, the House will be prorogued or perhaps dissolved on Friday or Saturday at the latest.

Clauses embodying the latest concessions from the Federal Gov't will be inserted in the Natural Resources Bill and third reading proceeded with. No opposition may be expected.

The new School Bill will, of course receive the greatest attention and may encounter strong opposition. The members have probably heard strong opinions expressed, for and against, by their constituents during the recess and may have much to say when they reconvene.

Other bills, mainly of local interest are yet to be passed. These include charter amendments for Edmonton and a bill to regulate mining under cities. This last chiefly of interest to Edmonton where some excitement has been caused by subsidence of the ground endangering buildings.

A convention of the Liberals of Alberta provided political interest for the week. A new leader, J. W. Macdonald, of Macleod, was chosen to lead the party back to power. Mr. Macdonald is well and favorably known in Southern Alberta chiefly because of his able administration of the affairs of Macleod. A warm election may be expected in the constituency of Macleod when the new leader attempts to find himself a seat at the expense of the sitting member, W. H. Shields, U. F. A.

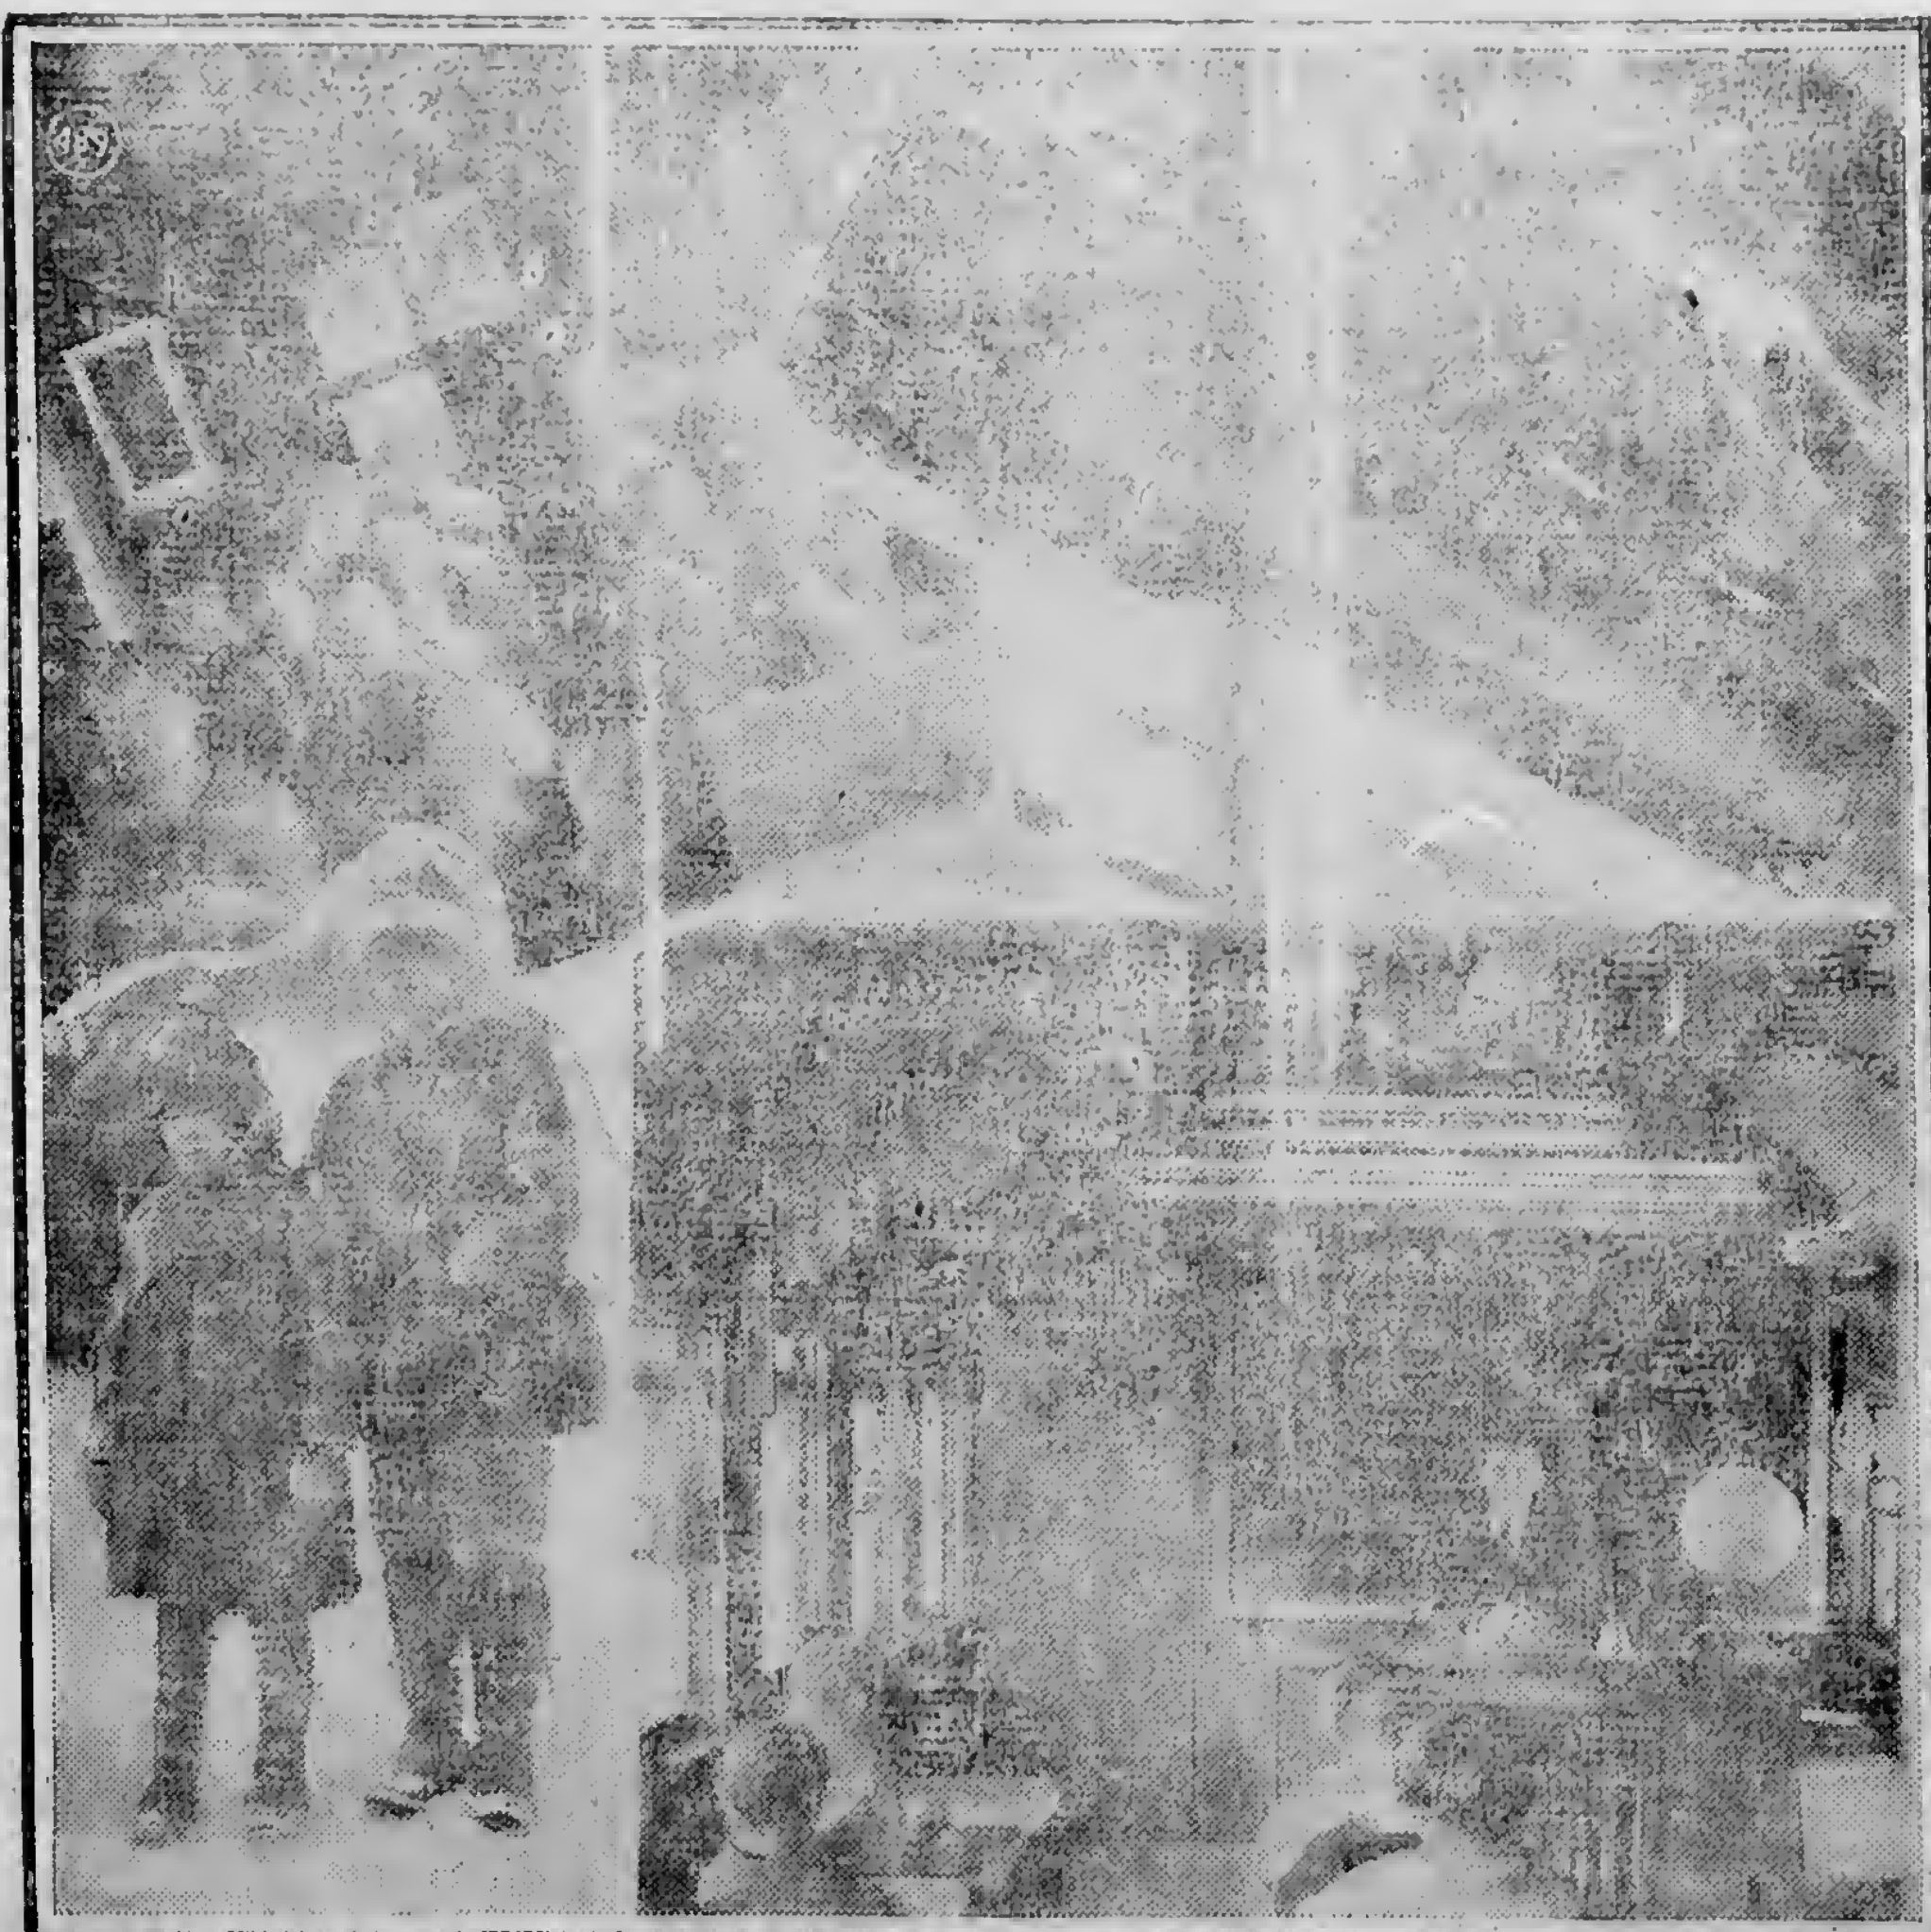

It should be a matter of regret to the Liberals that Mr. Shaw has resigned. His work as party leader during the present session has been especially praiseworthy. To the unbiased spectator in the gallery Mr. Shaw has been surpassed in effectiveness only by the Premier himself.

It should be a matter of regret to the province, as a whole that two of the ablest members of the House have practically dropped out of politics during the recent session. Mr. McGillivray has not only resigned as leader of the Conservatives but has not been able to occupy his seat. Although Mr. Shaw has carried on as House leader of his party for the session he will probably drop out as soon as it is over. But strength is desirable in the Opposition as well as in the Government. Constitutional authorities recognize the necessity of having strong and competent opposition to secure well-balanced legislation as well as to spur on the government to its best efforts.

JOLSON TRAILED BY "VOICE CHASERS"

"Voice chasers" are the gentlemen who drag the microphone after a moving actor. Porehed high above the camera angle, among lights and pulleys armed with a long, lean pole with a velvet-padded hook on the end the "voice chaser" stands ready to push or pull the sensitive microphone along over the head of an actor if he moves as he talks, thus greatly widening the range, which can be used. Al Jolson was much amused by these attentive gents while making Warner Bros. "Say It With Songs" at the Capitol Theatre, Mon. Tues. and Wed.

Taking the School to the Scholar

Providing schooling for children in the isolated sections of Northern Ontario long baffled the Ontario Department of Education. The little red school house—if it had been built—would have stood alone with no sign of human habitation for miles around or, if there had been a few houses near, the cost of upkeep would have been too heavy a burden on a few scattered families. So the Canadian Pacific Railway was called into consultation and the result is the travelling school car which has been operated during the winter months with increasing success for the past few years.

Every child loves a train, but when that train comes especially to him and becomes his school—

well, you have to go to fairy tales to get the like of that. So they come enthusiastically from miles around, French-Canadians, Rumanian, Indian, Italian, English-Canadian—all races and ages from five to fifteen years of age. They come on snowshoes, skis, by dog team, from near and far. They get the three R's and they get acquainted among themselves. Difference of speech makes little difference to them and soon they are all using English. Children of pioneers, are bright and adaptable. Lay-out shows exterior of car, interior with class of boys and girls all set for lessons; another interior showing teacher and black board; and two typical school children on their way to the car.

THE COUNTRY AND US

We put the heading this way because we must suit our methods and practice to the country instead of trying to make the country fit our system. That much, of course goes without saying.

It is gratifying to see the swing to diversified farming that is taking place. But, we ask, is this swing fast enough. As we change because we like mixed farming better than having all our eggs in one basket. Are we changing because we have seen the handwriting on the wall, or are we changing because it appears to be the last straw at which we may grab to prevent financial ruin?

It is almost incredible, that, in the face of our knowledge of the eccentricities of this district as regards hail, drought, frost, early snows, etc. that year after year, wheat continues to be the chief crop, and in many cases the only crop of some farmers.

We talk of hard times, crop failure, poor prices, and yet we must admit, that in the final analysis, if these things are true, they are largely our own making.

Crop rotation, coupled with live stock such as hogs, sheep, cattle and poultry, give a diversification of interests, that would put a farmer in a very enviable position and decidedly independent. There is seldom a year but what some line of produce, either grain or livestock suffers from over production, and if the one crop farmer hits this year, he is hit hard. This is because of the law of supply and demand. For instance, last year, there was no market for turkeys, people were disappointed and a great many will not raise any turkeys this year which will likely result in prices being far above average. In that case, those who do have some to sell, will reap a golden harvest.

Now, these things are things over which we have no control. The law of supply and demand is the real equalizer and keeps us from becoming over balanced, and so far, we have no machinery to overcome this condition.

This is why we contend that one-crop farming is altogether too hazardous for the people who are depending on that crop alone for a living. Our local condition today is largely due to one-crop farming. Wheat took a slump, farmers both in and out of the Pool were disappointed, had nothing else to sell or convert into cash, and the result is that many are living on borrowed money, and some will continue to do so until next fall, and pay interest all summer on what they eat.

If every farmer had a programme of mixed farming, when wheat slumped would have some other crop to offset his loss, and still be independent. Why don't we have a creamery, a cheese factory, a cannery, and other industries here. Something to guarantee prosperity, furnish employment in the winter, and put the district on a cash basis, from machine dealer to peanut vendor.

We would all be happier, more contented and decidedly more firmly established.

"Here's a Chicago man in trouble for being engaged to four girls at the same time."

"We should not blame him too severely. In Chicago I suppose even Cupid uses a machine gun."—Louisville Courier-Journal.

HOUSE ORDER PAPER SUGGESTS ELECTION IS NOT FAR DISTANT

Ottawa, April 3.—(Special to the Recorder) The Parliamentary session got under way with a rush suggestive of brevity but stumbled on a series of snags which promise nothing better than midsummer prorogation and suggest general acceptance of the belief that an election is not far away.

Resolutions dealing with every local and general election cry have been put on the order paper in the scramble to get on with the written record as in favor of this, or as opposed to that, before polling day. The Government has given no further indication of its intentions but the legislative program as it develops, shows that the road is being paved for dissolution just as soon as the outlook is propitious.

Social and paternal legislation is being urged by both oppositions in aid to health work, to technical education, to a national highway to agriculture and to returned men. There was a moment when it appeared that Mr. King was flirting with the idea of unemployment insurance when he told a delegation from the Western Provinces he expected it would come presently. He largely dispelled the illusion the following day by indicating that he believed such insurance to fall under the Provinces. No one of the Provinces can act without all the rest in such a cause or it would be swamped with the unemployed of the whole Dominion each winter. An interprovincial conference with the Dominion on the subject is hinted at but it is unlikely before the general election.

Mr. Dunning is said to have his budget drafted but its contents remain a secret within the cabinet until its presentation. Tariff cuts on certain motor cars hinted at as are increases in both preferential and general duties of butter, eggs and cheese. Tax changes will all be designed to attract the voter with the least possible dislocation of revenues. Some difficulty is encountered in the fact that revenues are likely to automatically contract quite materially as a result of the stock market crash and the wheat situation which have lessened buying power and slowed up business generally.

WOULD MAKE YUKON LARGEST RIDING IN ELECTORAL HISTORY

Ottawa, April 3.—(Special to the Recorder) The most interesting legislation introduced this session of Parliament—apart from that dealing with vital national problems—is a bill introduced by the Solicitors-General which would include all the Northwest Territories in the Yukon electoral district.

If it becomes law the next member for the Yukon will represent a larger constituency than any other elected representative on earth. It will be 100 times larger than all Belgium, six times as large as France, seven times as large as Germany and more than ten times as large as England Ireland Scotland and Wales. Its area in square miles will be 1,242,224.

The Yukon already one of the largest electoral districts known contains 207,076 square miles and over 1,000,000 square miles will be added to it. It will stretch from the Atlantic to the Pacific and from the present northerly limits of the Provinces to the North pole.

The area which it is proposed to link with the Yukon for electoral purposes contains 478 whites, 3,800 Indians, 7,100 Esquimaux and 3,000 half-breeds. The returning officer, the bill points out, would have to operate from the Yukon by airplane and the candidates presumably would have to adopt the same plan. Otherwise it would require years, instead of weeks to cover the ground.

It is understood that the Esquimaux would automatically be given

the franchise, though how his vote would be properly registered is not made clear.

A vigorous battle over the measure is forecast when it comes up for second reading. Captain George Black, present Member for the Yukon will probably move an amendment that the territory be added to Prince Albert, represented by the Prime Minister, or to Edmonton West represented by Hon. Charles Stewart the Minister of the Interior.

Spring is here! How do I know?

Bats and baseballs tell me so!
The boys have organized themselves
into five baseball teams and intend
to make good use of all their spare
time.

The girls have a new ball and a nice
yellow bat, and appreciate the fact
that the school grounds are large so
they don't have to quarrel with the
boys over diamond space.

Grade 9 are showing their superior
energy by coming to school at 8:30
in the mornings. They think that a
half hour's science extra today is
good for (x) marks extra next June.

In the spring a student's fancy igh-
tly turns to thoughts of June exams.
Last week the school received the
Departmental Examination Time table
Results: one extra physics class;
seven extra science classes; unknown
number of extra composition classes,
per week; also the seniors began to
make chemistry notes.

You can always tell a Junior by
the way he sleeps in school.

You can always tell a Freshie for
he breaks every rule.

You can always tell a Senior by
his dignity, and such.

You can always tell a Sophomore;
but you can't tell him much.

Mr. Low endorses the last line after
physics class.

Why are the Senior so busy? Don't
you know, they are giving a Senior
Prom. The first of its kind for four
years. They intend to establish a
precedent so that it will be an annual
affair hereafter. Watch for it.

Points of Interest

How many Freshies passed grade 8
with honors?

When was the last year book
printed?

When will the next one be printed
This spring.

When did the school last print a
paper?

The laboratory equipment was in-
creased the other day by the addition
of a still. Now we can distill water
right here at school for our experi-
ments.

At the present rate of improvement
we shall soon have a "lab" to be
proud of.

W. G. Smith of the A. C. Staff was
in Lethbridge on Saturday last week.

GET RICH QUICK DISCIPLE

COW, SOW, CHICKENS MORE PRO- FITABLE THAN GRAIN

Farmers who have suffered heavy
losses through reaction of the grain
markets and are now waiting for the
upward trend to start in the hope
that they may at least make some-
thing out of their crop, would do well
to follow the advice of H. A. Dressler,
Jabo, Kansas.

Dressler, a former school teacher,
and now one of the outstanding agri-
culturists of his state, believes the
only way for farmers to make pro-
gress is by the sow, cow and chicken
system.

Mr. Dressler is the man who raised
and bred the first Kansas cow to
pass the 1000-lb. mark for butter-fat
produced in one year.

Twelve years ago he turned his
back on the little schoolhouse where
he had been teaching and started to
farm. His first move was to purchase
five excellent registered Holstein
heifers and a similar sire bull. He
paid on the average \$400 for the heif-
ers and \$300 for the 8-month old bull.
A cash payment of \$2,300 and a
\$10,500 mortgage for 160 acres of
land completed the initial transaction.

"The cows have made it possible
for me to carry a financial load," he
explained, "in a period of deflation."
He struck a deal with a nearby candy
manufacturer to sell sweet cream at
7 cent premium over regular prices.
Skimmed milk went to his herd of
purebred Duroc hogs and a flock of
White Wyandottes.

The three-cornered combination
has lifted the mortgage, given the
Dresslers a comfortable home, pro-
vided luxuries for his wife, three boys
and one daughter and made him a
state leader in agricultural work. He

FORD IS BUILDING BIG ENGLISH PLANT

London— "Today you look out upon some 3000,000 acres of undeveloped land, tomorrow this site will be sending 250,000 motor vehicles to all parts of Europe and Asia Minor per annum placing Great Britain in a class, as a producers of cars, comparable only with America," declared Maj. A. S. Calkin, the Ford Motor Company's surveyor, to members of the Institute of Municipal and Country Engineers who recently visited the Ford works in course of construction at Dagenham, Essex.

It is anticipated that the work of construction, will last another two years," said Major Calkin, "during which period some 2000 or 3000 men will be employed.

Mr. Ford has decided to eliminate that indescribable nuisance the South Hornchurch refuse dump which adjoins our site. We are going to demonstrate how power can be generated out of ordinary house refuse. We are erecting, at a cost of approximately \$500,000, a refuse destructor and special boiler plant operating at 1200 pounds pressure—a record for this country—which will consume 1000 tons of house refuse per day, converting it into steam which will be utilized for the purpose of generating electricity.

"The factory will have the only blast furnace in the south of England having a capacity of 500 tons of ore per day, and a battery of coke ovens capable of carbonizing 800 tons of coal per day. It would also have its own jetty, which would be the longest river front jetty on the Thames.

"As soon as the works on the new site are completed the Cork factory in Ireland will concentrate on the manufacture of tractors for export abroad particularly to the United States where they are not made."

—Christian Science Monitor.

Here and There

(394)

Prior to leaving on S.S. Metanama with his niece, Miss Helen MacKenzie, who is to be married in London next month, His Honor R. Randolph Bruce, Lieutenant-Governor of British Columbia, attended the official opening of the New Brunswick provincial legislature. In his trip by Canadian Pacific across the Dominion, Mr. Bruce called on every Lieutenant-Governor in Canada.

Captain A. J. Hoskin, R.N., skipper of Canadian Pacific liner Empress of Russia, was recently winner for the second time in succession of the E. W. Beatty shield for safety and efficiency. The shield was donated in 1928 by the chairman and president of the railway for competition among company ships of the Pacific fleet.

First week in March witnessed the addition of Alberta and Saskatchewan to the Canadian Pacific Railway's broadcasting chain which now covers Montreal, Toronto, Winnipeg, Fleming, for Saskatchewan and Calgary for Alberta. Slogan of the broadcast is "Cheerful and Good," and sea chanteys and songs from ballad operas together with high class orchestral pieces are put on the air every Friday night between 10 and 11 Eastern time.

In Ottawa electricity for domestic use is cheaper than anywhere else on the continent, if not in the world, according to authorities on the subject. It is sold at a rate that averages less than one cent per kilowatt-hour which means that the average bill for electric light incurred by citizens of the Canadian Capital is about \$1 per month.

At the World's Poultry Congress to be held at the Crystal Palace, London, England, next July, Canada will be a conspicuous participant. The Canadian exhibit of five birds will total about 1,000. The last World's Congress was held in Ottawa in 1927.

One of the largest real estate transactions of modern times will be put through at the present session of the Canadian Federal Parliament, when legislation will be submitted to enable the Government to hand over millions of acres of land, a substantial amount of water power, vast forest wealth and other natural resources to the provinces of Manitoba, Alberta and British Columbia.

The music, songs and dances of Latin, Celtic, Scandinavian, Slav, Teuton and British will all be represented for Canadians this month when on March 19-22, the third Great West Canadian Folk Dance, Folk Song and Handicrafts Festival will be held under the auspices of the Canadian Pacific Railway at the Palliser Hotel in Calgary.

Unusually heavy pre-Lenten weddings were indicated this month from the Windsor street station, Montreal, when 25 blushing honey-mooners left that city for Ottawa, Quebec and New York on one morning. Station officials say that this is very heavy for the time of year and comes close to the number leaving the station on mornings of cupid's special month of June.
